## WIRELESS HEADPHONES

### Listen, Play, Communicate

Experience reliable sound clarity and all-day comfort with Audio-Technica's ATH-S220BT wireless headphones. Featuring up to 60 hours\* battery life and multipoint connectivity, the ATH-S220BT headphones provide stress-free sound and seamless communication.

### Overview

These on-ear wireless headphones provide superior comfort, with this lightweight, relaxed-fit design. Combined with quality audio reproduction, these headphones are perfect for gaming sessions, streaming marathons, communicating online or simply settling down to listen to your favourite album. Connect wirelessly to PCs, tablets and smartphones, with multipoint connectivity enabling you to connect to multiple devices at once. Don't waste valuable listening time setting up or trying to switch devices. Fully immerse yourself in videos and games with extremely low latency, and with up to 60 hours of battery, the ATH-S220BT offer stress-free usage all day.

### Features

#### Light and Comfortable

##### Lightweight, relaxed-fit headphones for all-day comfort

Weighing in at just 180g (6.3 oz), the ATH-S220BT headphones' intelligent design helps prevent neck and shoulder strain, so you can enjoy album after album or gaming sessions with friends.

##### Comfortable close-fitting earpads.

These snug yet stylish wireless headphones incorporate low-profile earpads, specially designed to prevent sound from escaping. There's no compromise between comfort and aesthetic when it comes to these wireless headphones either, thanks to the wrinkle-free seamless construction.

#### Stress-Free Charging

##### Long-lasting battery with up to 60 hours\* of use

Our Audio-Technica ATH-S220BT wireless headphones have a powerful battery life, making them reliable for longer periods of time without having to worry about recharging. Plus, with a USB type A to USB Type C™ cable included, you're able to charge with ease using a variety of different devices.

*\*Results may vary depending on usage conditions.*

##### Fast-charging support

The ATH-S220BT wireless headphones can be charged for as little as 10 minutes and will give you an astonishing 3.5 hours of listening time. Simply plug them in while getting ready and experience rich, authentic sound for a full day's worth of enjoyment.

## WIRELESS HEADPHONES

### Bring Videos and Games to Life

#### Minimize audio lag with Low Latency Mode\*

Enjoy minimal sound delay while watching videos or playing games on your smartphone or tablet.

\*Bluetooth connections may be affected by obstacles and ambient radio wave conditions.

### Crystal-Clear Calls

#### Hands-free calling for fewer distractions

You'll be able to capture crystal-clear audio thanks to the ATH-S220BT's high-quality built-in microphone. Enjoy the ability to stay connected with friends and family from a variety of devices, controlling the conversation directly from your headphones using intuitive on-ear controls.

### Multipoint Pairing

#### Connect to two devices at once

With the ATH-S220BT headphones you can connect to both your smartphone and your PC or tablet at the same time. Never worry about switching devices again, with these headphones you can answer a call on your phone while enjoying videos on your PC.

### Fast Pair Support

#### Simplified pairing

Easily pair to compatible Android devices with just one tap with Fast Pair. Start enjoying your devices faster and more easily with stress-free pairing.

•Google and Android are trademarks of Google LLC.

### Wired or Wireless Connectivity

#### Cable included for wired connections

The 1.2 m (3.9') included cable with in-line mic and control can be used whenever a wired connection is preferred. The cable also helps conserve battery power and makes connecting to a PC incredibly quick and easy.

### Intuitive Operations

#### Advanced on-ear controls

Easily operate your device right from the headphones, even when playing music or making a call. The buttons are designed to be easy to feel and use, enabling stress-free operation.

### Compatible with Siri and Google Assistant

#### Easy access to speech recognition for smartphones

With both Siri and Google Assistant compatibility, you're able to access your device's speech recognition function at the touch of a button. Receive notifications, send messages and control your audio playback without lifting a finger. Plus, our voice guidance function can be used to deliver notifications, including power and pairing statuses, as well as helping you monitor remaining battery levels (low, medium, high).

RRP: £60/69€ (inc. VAT)
